

800 patients randomized!

We are delighted to announce 800 patients have been randomized to phase 2 of the trial since commencement.

Congratulations to all sites on their hard work and dedication in recruiting over the last few months.

No cost extension

The SENATOR consortium has made a submission to the EU commission seeking a 9 month no-cost extension. We hope to hear a decision from the commission shortly.

The no-cost extension would facilitate greatly the recruitment target of 1800 patients.
